

Release Notes

Model: Datavideo DVIP_Net_Config

Jan.17, 2022

Firmware

Version: v1.1.5

File Name: DVIP_Net_Config_x86_v1.1.5

Issues

1. Fixed the issue that it may cause failure when modifying the Network Config software.
2. Fixed the issue that the single Ethernet card can not be scanned.
3. Adjusted location and font size for some User Interfaces.
4. After the software is unzipped, please double-click the .msi file for installing. After the installation is finished, you can see that there is a shortcut of the "DVIP_Net_Config from the "Start Menu" of your system.

May.15, 2020

Firmware

Version: v1.1.2

File Name: DVIP_Net_Config_x86_v1.1.2

Issues

1. Initial release.
